Latin Crossroads - *Latin Crossroads*

Born from the curiosity of exploring Latin influences that are fundamental to pop, classical music and Jazz, pianist & master arranger Gino Amato presents *Latin Crossroads*, his debut release on Ovation Records. Co-produced by 4x Grammy® Award winner Oscar Hernández, *Latin Crossroads* features a stunning array of musicians, including Randy Brecker, Dave Valentin, Joe Locke, and vocalist Janis Siegel. Experience an extraordinary album that will completely capture your imagination and revitalize your appreciation for American popular music.

Showcasing a remarkable assortment of popular songs and standards, *Latin Crossroads*' innovation flows from Amato's inquisitiveness and an extensive professional career navigating several musical idioms. Exquisitely reframed, familiar compositions by James Taylor, Donald Fagen, Tchaikovsky and Paul McCartney are reborn through the infectious swing of salsa and Latin Jazz.

Following his bliss, Amato hopes the album will "present Latin music in an accessible format so everyone can truly enjoy how unique and special it is!" Whether you crave being inspired by music or simply want to dance the night away, *Latin Crossroads* will transport you to the rare intersection of fascination, enlightenment and sheer joy, mesmerizing your mind and your hips!
